Re: Regarding Toby Dion's Nissan Titan

To Whom It May Concern:

On 06/24/26 Mr. Dion had his Nissan Titan towed to our location due to lack of power and check engine light on. Upon inspection we found severe long term rodent damage in the engine compartment of the vehicle (documented with photos). The damage found appears to have started a considerable amount of time prior to the vehicle arriving at our facility and has caused expensive catastrophic damage to the vehicle.

Thank you,

Sam Houston
